

## FORECAST FOR 2006 10 GREAT OPPORTUNITIES

### - Currency -

 **Fractional Notes** - Under valued and under appreciated for years. These notes are 140 years old and are available at reasonable prices considering their rarity.

 **Fr. 40 \$1 Large U.S. Note** in XF or better condition. These stunning red ink notes are getting tougher to find, and acquiring a specimen in these grades would be a worthy challenge

 **AU or better North Africa or Hawaii WWII Emergency currency.** The trend in the last 6 months alone has been hard to stay on top of. The better notes are in demand!

 **Star Federal Reserve Bank Notes** - minimal production numbers. These brown seal stars in any condition are worth the investment. Significantly undervalued compared to a coin that had the same mintage numbers.

 **\$50 Gold certificates** - Try find notes that are XF or better. These stately Grant notes in either small or large sizes are tough to get and will be in more demand within a short time.

 **National Bank Notes from Northern Indiana or Southern Michigan.** Don't be concerned about the condition of the note in most cases. We cannot hold on to notes from Kalamazoo, Valparaiso, Michigan City, Gary, East Chicago, Hammond or Plymouth. More paper money collectors are getting more active every month...the supplies are very limited.

 **Large Size Red Seal Federal Reserve Notes.** If you can find them, do not hesitate.

### - Coins -

 **Pre WWII proof coins or sets.** Pick out a good grade and hold them.

 **Certified GSA Carson City Morgan Silver Dollars** - Try to stay with those certified Ms64 or better.

 **Gold** - I don't care what type! **Gold in any form.** Your best buy might be bullion Eagles, 50 Peso, Maple Leafs and Coronet Double Eagles and Eagles. MS graded Indian Gold Half and Quarter Eagles are going to jump high.

**Jeffrey R. Paunicka** is the President of Insight3, Inc., Portage Indiana, an international marketing company and provider of professional numismatic services. He has been actively trading in numismatics since 1967. Part of his accomplishments include the development and global distribution of products used for cash handling and currency validation in the Gaming Industry. For 18 years he was involved in banking operations for a regional institution in Northwest Indiana and for Mellon Financial Services in North America. He holds an MBA from the University of Notre Dame in South Bend Indiana and a B.S. from John Carroll University in Cleveland Ohio.
